

YOUNG GLOBAL CHANGERS

General Terms and Conditions

1. INTRODUCTION

By participating in the Young Global Changers Recoupling Awards (“YGC Recoupling Awards” or “Awards”), you agree to the conditions stated in this participation agreement (“Agreement”). Note that “you” or “your” refers to the interested party or applicant. “We”, “our” or “us” refers to the “Global Solutions Initiative Foundation gemeinnützige GmbH” (“Global Solutions Initiative”, “GSIF” or “Organizer”) and its affiliates and partners (collectively referred to as “GSIF”).

The YGC Recoupling Awards provide interested parties with the opportunity to compete for certain free services (described in section 6) relating to the Global Solutions Summit 2024 (“summit”), which is organized by the GSIF. In return for the possibility of successfully competing for the services, the interested party leaves the data from his/her application at the disposal of the GSIF. In the following, the term “Agreement” also pertains to the exchange of services and data outlined above.

2. WHAT IS THE YGC PROGRAM?

In 2017, the GSIF launched the Young Global Changers Program (“YGC Program”) which identifies, connects, and empowers young people from around the globe who are actively pushing for change in their communities and in different areas of society. Each year a new cohort of Young Global Changers from around the world joins the YGC program. Since 2017, the Young Global Changers program has attracted over 410 students and young professionals from more than 120 different countries.

3. WHAT ARE THE YGC RECOUPLING AWARDS?

With the YGC Recoupling Awards, the Global Solutions Initiative wants to recognize and support projects that embody the “recoupling” approach, which describes activities that aim for a better alignment of economic or political activities with social well-being and environmental sustainability. The Awards recognize individuals with leading roles in projects, start-ups, social-businesses, non-profit initiatives, or similar organizations that steer economic or political engagement towards the needs of people while aiming for environmental sustainability.

Beginning in 2024, the YGC Recoupling Awards hosts the awards in categories that acknowledge the different methods of effort towards recoupling objectives. As such, the Reimagine Business, Reimagine Social and Climate Action, and Reimagine Civic Engagement Awards were created.

3.1 Categories:

(a) Reimagine Business: This award category aims to acknowledge businesses who intentionally incorporate recoupling approaches and work towards a more sustainable social sphere and environment. Therefore, we are looking for businesses and social enterprises that implement a business model that fosters social prosperity and environmental goals.

(b) Reimagine Social and Climate Action: This award category aims at nonprofit projects that work directly in socially, economically, or environmentally challenged communities, empower or assist individuals or communities to tackle those challenges, or help to directly address environmental crises like biodiversity loss, pollution, or climate emergencies.

(c) Reimagine Civic Engagement: This award category aims at projects that encourage citizens to take part in policy decisions that affect their lives. We are looking for projects that challenge ineffective or discriminatory systems by increasing transparency and accountability and by empowering citizens, community members and disempowered groups to become more active and engage with their governments, policy makers, community leadership or other decision-making bodies.

3.2 Process

The application process for the Awards competition consists of several rounds.

(a) ROUND 1 “Open Call for applications”

All applicants who meet the eligibility criteria (see section 4. below) will become members of a global network of young changemakers (“YGC Extended Circle”) and will be informed regularly about activities, events, and opportunities as part of the Global Solutions Initiative’s network.

(b) ROUND 2 “Semi-Finals”

From all entries several semi-finalists will be selected. All semi-finalists will be named “2024 Young Global Changers”. Their projects will be presented on the GSIF website.

(c) ROUND 3 “Finals”

Out of all semi-finalists, 15 finalists will be selected by a jury. The finalists will receive a scholarship which will include a travel-grant to travel to Berlin, Germany to attend the 2024 Global Solutions Summit on May 6 and 7. A selection will be invited to present their project in front of a jury of renowned experts and a global audience onsite as well as digitally around the world. (For more details see section 6.3).

(d) THE AWARDS

From all finalists, a jury will select one winner from each of the aforementioned categories (see 3.1) to total three category winners. The Awards Categories are as follows:

- (1) Winner of the YGC Recoupling Awards - Reimagine Business
- (2) Winner of the YGC Recoupling Awards - Reimagine Social & Climate Action
- (3) Winner of the YGC Recoupling Awards - Reimagine Civic Action

Each of the three category award winners will receive prize money in the amount of €1,500.

From all finalists, a jury will also select one overall winner (“Young Global Changers Recoupling Award Winner” or “overall winner”). The overall winner will receive €3,000 for this achievement and may receive additional support for their project (For more details see section 6.4).

Details of how the jury will assess the entries can be found in a separate document „Assessment of Application” ().
