## Recoupling Social and Economics Progress Towards a Global Paradigm Change

Welcome to the third Global Solutions Summit in Berlin. We are glad to have you here! This Summit aims to support the Japanese T20/G20 Presidency. It also takes into consideration the past achievements of the Argentinean and German Presidencies, in 2017 and 2018 respectively. The ideas generated and discussed here over the next two days will become **inspiring input for Saudi Arabia's Presidency in 2020**.

We are delighted to welcome over **1,200 participants** from more than **100 countries** and around **160 speakers and panelists**. Many of you will see Heads of State and Government, representatives from various international organizations, G20- and T20-Sherpas and other G20 connected networks, ministers and mayors, EU Commissioners, think tank researchers, representatives from NGOs and global enterprises. **Global Solutions Summit participants are diverse, in all respects, and this is our strength!**

As in 2017 and 2018, we proudly welcome the Young Global Changers (YGC). More than **3,500 applicants from 155 countries** applied to participate and it was exceedingly difficult to choose only 90 individuals for this year's program.

The theme of this year's Summit is the urgent need for a global paradigm change to recouple social, political and economic progress. This **paradigm change is fundamental** in our quest to establish a sustainable, optimistic and future-orientated world order.

This year, we are building bridges between the worlds of ideas and action. Implementers at the Summit will challenge the proposals made by T20 working groups and bring their practical experiences into the global problem-solving discussion.

We are humbled by the enthusiasm and engagement of so many people from around the world in preparing this Summit. All of them deserve a heartfelt thank you, especially our partners, who made all this possible.

This Summit connects researchers and decision makers from around the world to tackle global problems multilaterally in the interest of civil societies around the world. **It aims to serve as a common global good.**

Thank you for joining us in Berlin.

## The Young Global Changers Program

To include the views of the next generation, young visionaries are invited to participate in the Young Global Changers (YGC) program and the Global Solutions Summer School. The YGC program was founded in 2017 and is part of the Global Solutions Summit. Over 3,500 young professionals from more than 160 countries applied. At the summit, during workshops and lectures, the YGC's connect with policy thinkers and policy leaders from think tanks, politics, business and civil society to share ideas and know-how.
